We have reviewed your completion estimates that have been submitted for the peninsula camp, contract item 1-31, which reflect all of the work that has been done as well as the work order numbers covering this construction. The records we have in the Los Angeles office indicate Jobsite's assignments of work order numbers as follows:

Clear land area	Work order 3035
50 - 4' x 6' tents	3029
Outdoor Toilet	3042
2 Latrines	3043
Fire and First-aid Building	3045
Kesshall	3031
Administration Building	3044
Heavy Equipment and Repair Shop	3054
Distillation and Power Plant	3046
Refreshment Building	3051
Postoffice and A.M. Building	3050
Water and Sewer System	3028 and 3032
Electrical Distribution	3052
Telephone System	3045

All of the Work orders were issued as a result of the Field Manager's directive of November 14, 1952, file #C-231, and as reflected on RS 2000-2. The Original Cost Estimate was submitted to the Field Manager on January 19, 1953, and it is now important that the current cost estimate be submitted for this camp construction.

It is requested that Jobsite prepare the current Cost Estimate covering this camp construction as was reflected on the Work orders listed above, and that the current Cost estimate parallel the Item Numbers and other detail as reflected in the "Original" Cost Estimate of January 19, 1953.

If an analysis of the situation by the Jobsite indicates that the present planning will delete construction of any of the items included in the Original Cost Estimate, your transmittal of the current Cost Estimate should reflect such items.
